To meet the requirements of traffic construction customers: Need a fast boundary processing equipment to replace the manual flow to ensure the progress but at reasonable cost, quick return of capital.

Thu Duc Engineering and Construction Co., Ltd has successfully researched and manufactured the slab formers with the following parameters:

Engine power: 60Hp

Maximum speed of 4m / min, moving by crawler.

Maximal bed thickness: 45cm (high), 60cm (width)

Automatic steering control system with standard wire by sensor.

Hydraulic vibrator system, diameter 66mm.
