Matit is used for masonry, slab expansion, concrete pavement, warehouse, asphalt cracks.

Technical features:

1. Safe design for the user.

2. Easy to use. [Nbsp]

Central heating control system.

4. Temperature equilibrium. [Nbsp] Indirect heating system avoids excessive heating of the mats.

5. The pump system is different pump mode and less maintenance.

6. Heat Resistance: Heat resistance provides various heat regimes up to 270 degrees.

Models

TS500

Size 410x210x250 cm

Weigh 1900 kg

Load height 125 cm

Container material 500 lit

Oil capacity of heat transfer 90 liter

Cooking time 45 ph

Motor Diesel Yanmar,114 liter

Thermistor 6 m
