Concrete mixing plant made in Germany with the capacity of 30 - 60 tons / h. Two-shaft, double-axial forced mixing tank with Sicom technology. Siemens control system with Japan, United States provides high reliability. Automatic, semi-automatic or manual control mode.

Modular construction makes it easy to remove, install, transport, secure, stable and flexible structure.

With a team of skilled technicians, we provide a package of transportation, installation throughout the territory of Vietnam with all types of installed terrain.

Machine name	**Capacity (m^3/h)**	**Mixer**	**Volume of mortar mix**	**Quantitative tolerances**				**Height of material discharge**
				Mixed	**Country**	**Cement**	**Additives**	
SM25	25	JS 500	0.5	≤±2	≤±1	≤±1	≤±1	3.8 m
SM35	35	JS 750	0.75	≤±2	≤±1	≤±1	≤±1	3.8 m
SM50	50	JS 1000	1	≤±2	≤±1	≤±1	≤±1	3.8 m
SM75	75	JS 1500	1.5	≤±2	≤±1	≤±1	≤±1	3.8 m
SM100	100	JS 2000	2	≤±2	≤±1	≤±1	≤±1	3.8 m
SM150	150	JS 3000	3	≤±2	≤±1	≤±1	≤±1	3.8 m
